Dear Valued Customer:

Our manufacturers and suppliers have notified us at Kobett Metals of another 10% price increase across the board on most all our Gutter, Downspout, and Roof Metal products. Unfortunately, effective **February 1, 2021** we must raise most of our prices **8% - 10%**.

We encourage our valued customers to take the time and project from your upcoming projects the materials that we provide, that you will be needing.

Order now or before February 1st and we will lock in your price before the increase goes into effect. We can then hold your materials until you need it. Our team at Kobett Metals goal is to ensure that our customers are successful.

Best regards,

Kobett Metals
